PROJECTS

BeatFlow - Music player [Web Link](#)

- BeatFlow offers personalized accounts, enabling users to curate their own playlists. The music player includes functionality for play/pause, previous/next track navigation, volume control, and an audio seeker for precise playback management.
- Technologies - **React.js, Redux, Bootstrap, Formik, Yup, Node.js, Express.js, Mongoose, MongoDB, Cloudinary** and **Nodemailer**

BlendCart - E-Commerce Website [Web Link](#)

- BlendCart is a dynamic e-commerce solution with product banners and tiled displays. It features user authentication, detailed product pages, cart management with quantity updates, PayPal integration for payments, and order tracking. The admin panel offers control over product inventory and delivery status.
- Technologies - **React.js, Redux, Bootstrap, Node.js, Express.js, MongoDB** and **Cloudinary**

QuikNote - Notes App [Web Link](#)

- QuikNote is a task management application designed for user-specific data handling. It allows users to create tasks with tags, as well as edit, delete, and pin tasks for easy access. The app supports search functionality by title or content and is fully responsive across various screen sizes.
- Technologies - **React.js, Redux, Node.js, Express.js, MongoDB** and **Tailwind CSS**

SOFT SKILLS

- Effective Problem-Solving Skills, Strong Willingness to Learn and Grow, Good Communication and Team Collaboration, Great Attention to Detail

CERTIFICATIONS

- **Zen Class Full Stack Developer Program - GUVI Geek Networks.**
- **Namaste JavaScript Program - NamasteDev (Akshay Saini).**
